

Installing 360courier and Ordering a Surgical Guide

Go to: www.360courier.net to install the free HIPPA compliant file transfer and virtual RX software.

1

Click on 'Download' and fill out the form. Click 'Register and Download'.

2

The 360courier downloader will start. 'Click Next'.

3

Once completed Click 'Run 360courier'.

4

Enter the Serial Number and Activation Key from the automatic email you received. Check both junk and spam folder if you don't see an email.

*** To select another lab besides 360imaging, click on your name in the upper right hand corner. Under the 'Preferences', click the 360imaging hyperlink and choose your lab. Hit 'Close' and 'Save Changes'.**

Open the 360courier software by double clicking on the icon on your desktop. Once opened, click on the 'New Order' button in the upper right hand corner. Follow the steps below to complete the virtual RX form to submit a case.

1

Select the services you need by checking the box next to the item. Click 'Next'.

2

Fill in the virtual RX form and implant system for the guide. Click 'Next'.

3

Select the teeth number(s) for the implant sites. Click 'Next'.

4

Attach the patient DICOM files by clicking the DICOM button. Add any Notes. Click 'Order Now'.

What is Required for Each Case?

Tooth Supported Guides - At least 4 natural teeth, recent CBCT scan (less than 6 months old), a PVS impression, model, or STL file from an intraoral scan.

* A wax-up is recommended for restoratively sensitive cases.

Mucosa (Tissue) Supported Guides - For fully edentulous patients, recent Dual Scan CBCT. * See Dual Scan Protocol

Bone Supported / Bone Reduction Guides - Recent CBCT scan of the patient.
